START HERE

Welcome to your ADHD Budget Planner

Thank you so much for your purchase! This quick guide gets you set up in about two minutes. No app, account or subscription needed.

Get going in 3 steps

1

Unzip

Open the download to get the file **ADHD Budget Planner.html**.

2

Open it

Open the file in your web browser (Chrome, Safari, Edge or Firefox).

3

Explore

Tap the gear, then **Load sample data** for a tour. Clear it and start fresh.

Opening it on your device

On a computer

1. Unzip the download (double-click it).
2. Double-click **ADHD Budget Planner.html**. It opens in your web browser.
3. Bookmark it (**Ctrl+D** on Windows, **Cmd+D** on Mac) so it is one click away.

On a phone or tablet

1. Save the download to your phone and unzip it in your Files app.
2. Open **ADHD Budget Planner.html** in your web browser.
3. Open it the same way every time, so you always see your saved planner.

Tip: Keep the file somewhere easy to find, like your Documents or Files app, rather than leaving it in Downloads.

Your data stays private

Everything you add is saved **only in the browser on the device you use**. Nothing is uploaded anywhere, and only you can see it.

Important: clearing your browser's history or website data can erase your planner. Make a backup now and then: **Settings → Export backup** saves a file you can restore anytime.

Using it on another device

1. On your first device, go to **Settings → Export backup**.
2. Send that backup file to your other device (email it to yourself, for example).
3. Open the planner there, go to **Settings → Import backup** and choose the file.

A quick tour

Today
Safe to spend today, one next step and quick log.

+ button
Log a spend or money in, in two taps.

Goals
Debt-free road, savings goals and the 48-hour wait list.

Bills
Every must-pay, soonest first. Tick to pay.

Money
Envelopes, paychecks and the month calendar.

Settings
Gear on Today: currency, theme, backup.

Quick answers

Do I need the internet?
No. Once you have the file, the planner works offline.

I deleted something by accident.
Tap **Undo** on the message at the bottom of the screen right after deleting.

Where does the money number come from?
Type your bank balance and add your paycheck. Update the balance whenever it drifts.

Something doesn't look right?
Try updating your web browser, then reopen the file. Still stuck? Send me a message.

Thank you so much 💚
